

## **Auto Fill Fields - Quick Start Guide**

*If you don't need an in-depth discussion of the various aspects of installation and usage of **Auto Fill Fields**, this guide is for you!*

Just the basics! Here's how you get Auto Fill Fields installed and operating:

1. Download AutoFillFieldsInstaller.exe
2. Shut down ACT! and all other running programs
3. Run AutoFillFieldsInstaller.exe
4. Create and save your lookup table
5. Start ACT! and fill in the Registration Screen and click [Register Trial]
6. Open your database with Administrator privileges
7. Select the "Auto Fill Fields Manager" option from the "Tools" menu
8. Define your trigger(s) using the Auto Fill Fields Manager
9. Close, and re-open you database
10. You're ready to activate a trigger

That's all there is to it!
