Age Today - Quick Start Guide

*If you don't need an in-depth discussion of the various aspects of installation and usage of **Age Today**, this guide is for you!*

Just the basics! Here's how you get **Age Today** installed and operating:

1. Download AgeTodayInstaller.exe
2. Shut down ACT! and all other running programs
3. Run AgeTodayInstaller.exe
4. Start ACT! and open your database with Administrator privileges
5. Select the "Age Today Manager" option from the "Tools" menu
6. Define your trigger(s) using the Age Today Manager
7. Close, and re-open you database
8. You're ready to activate a trigger

That's all there is to it!

For more details on any of these steps, refer to the detailed discussion the rest of this document
