Remove From Group - Quick Start Guide

*If you don't need an in-depth discussion of the various aspects of installation and usage of **Remove From Group**, this guide is for you!*

Just the basics! Here's how you get **Remove From Group** installed and operating:

1. Download RemoveFromGroupInstaller.exe
2. Shut down ACT! and all other running programs
3. Run RemoveFromGroupInstaller.exe
4. Start ACT! and open your database with Administrator privileges
5. Select the "Remove From Group Manager" option from the "Tools" menu
6. Define your trigger(s) using the Remove From Group Manager
7. Close, and re-open you database
8. You're ready to activate a trigger

That's all there is to it!

For more details on any of these steps, refer to the detailed discussion the rest of this document
